Best Practices Documents
Are they Really Necessary?

May 28, 2008
IASSIST 2008

Michelle Edwards, PhD, University of Guelph
Jane Fry, Carleton University
Alexandra Cooper, Queen’s University
Outline

- Why
- When
- Where
- What
- Who
Why?

• Why did we start?
  • University of Guelph & Carleton University already tagset documents
  • Queen’s University started working on their document
  • A number of other institutions interested
    • wanted to join and contribute
Why?

- Did **NOT** want to re-invent the wheel
- Did **NOT** want to duplicate efforts
- Sharing documents and files
When?

- May 1, 2007
  - <odesi> started
  - Developers started
- June 2007
  - First EAC meeting
- September 2007
  - Co-op students started
- October 2007
  - Project Manager started
Where?

- Ontario
  - Lead Institutions
    - Carleton University
    - University of Guelph

- Behind the scenes
  - Quebec
  - British Columbia
What?

- Collaboration
  - Three different points of view
  - Two different servers to view
  - Three different documents to examine
What?

- We joined efforts
  - Three meetings in 2007:
    - June – University of Guelph
    - July - Queen’s University
    - August – Carleton University
What?

- Goal of our meetings
  - To produce one document
    - Consistent and easy to interpret tag definitions – based on DDI “bible”
    - Consistent formatting for Ontario files
What?

- Process (Logistics)
  - Tag by tag – each of 5 DDI sections
    - Definitions
    - Examples
    - Formatting
And then ...

lots of discussion ...
more discussion ...
DDI break ...
all of us lost our minds along the way...
more discussion ...
emails to DDI ...
more discussion ...
eventually a decision ...
more discussion ...
and then ...
ta da ...

The Best Practices Document

aka

BPD
Who?

- Beneficiaries
  - All Ontario Universities belonging to OCUL (Ontario Council of University Libraries)
BPD

- Structure
  - Introduction
  - Main document
    - Five sections of DDI
  - Appendices
BPD Introduction

- Overview of `<odesi>` project
- The Set-up of this Document
- The Set-up of Each Section
- The Set-up of each Tag
- Formatting Conventions
- Abbreviations and Acronyms
- Questions, comments and contact info
- ...

• Overview of each DDI section
  • Introduction
  • Table of all tags used
    • Each tag
      • Mandatory / optional
      • Repeatable / Not
      • Attributes
      • Description
      • Formatting notes
      • Examples
Tags

- Tag Formatting
  - BPD recommends common formatting for all tags
  - Any unique formatting highlighted with `<odesi>` format
Tag Formatting Example

**Formatting Note:**

- Format for Agency/Institution and Place of Work/Department:
  
  Name of Agency/Institution. Name of Place of Work/Department
  
  (yes, that is a period between the two place names!)

- Format for Names:
  
  Last name, First name
<rspStmt>
  <AuthEnty affiliation="University of Guelph. Data Resource Centre">Edwards, Michelle</AuthEnty>
  <AuthEnty affiliation="University of Guelph. Data Resource Centre">Fair, Aaron</AuthEnty>
  <AuthEnty affiliation="University of Guelph. Data Resource Centre">Brett, Jan</AuthEnty>
</rspStmt>
BPD Appendices

A. Glossary
B. Nesstar Related Information
C. Statistics Canada Related Information
D. Data Documentation Initiative
E. <odesi> Related Information
F. Notes and Comments Tags – More Information
G. An XML Example
BPD

• Present status
  • Draft 2 finished
  • Translation into french in progress

• Next step
  • Update the wiki
  • Distribution
BPD
